```javascript
// JavaScript Document
var myOutput = document.getElementById('output');
/// Working with Variables
var myString = 'Hello 2';
var myNumber = 100;
var myBoolean = true;

var myArray = ['Hello 2',100];
console.log(myArray);

var myObject = {firstName:"Mike",lastName:"Smith"};

var myFriend = new Object();
myFriend["firstName"] = "Lisa";
myFriend["lastName"] = "Smith";
console.log(myFriend);

// JavaScript Document
var myOutput = document.getElementById('output');
/// Working with Variables
var myString = 'Hello 2';
```
